	Notes: Meets many, but not all, of the IOT standards. Pages of text have too much visual clutter with cartoon and photo integration, tabs, colors, and borders. Online functionality supports text and provides project-based learning for students. Text available online completely with search function. Strengths: Online access supports text with projects, activities, videos, etc. Many related and beneficial projects are introduced in the text Job interview information is detailed. Guide on page xvi explains procedures with project format. Reading Skills Handbook on page xxiv-xxvii is excellent. Hybrid text and online features are beneficial for modern student learning. Establishing short and long range goals is not present within the text. Networking, negotiating, and mentoring in careers are very limited within the text. Benefits, contact personnel, and hiring practices are very limited within the text. Multiple topics touched very briefly, not a lot of in-depth, critical thinking pieces outside of the encouraged projects. Some of the picture integration with the text is overwhelming, too much going on; cartoons present a more juvenile than professional approach (ie. depiction of dress of students on cover, etc.) No résumé example in text; could not locate on online access. 	Notes: We recommend for content area of Young Living, grades 6-8, but it is lower level thinking. Higher level thinking skills and technology integrations are limited in this addition. Not recommended for Teen Living, 9-12 as publisher suggests. Strengths: Meets content standards; well organized; well linked to the companion website; we loved the connection to FCCLA; the reading prep section at the beginning of the chapter is useful; liked web activities and loved the option of printable version. Weaknesses: The text is information or knowledge-based, not inquiry based; e-book version needs to be more interactive with vocab and other links; needs more cultural integration beyond pictures; technology needs to be integrated throughout the textbook. For example, social media, text communication, etc.; in some school districts, the required plug=ins will be a huge problem without tech. administrative authority.
